

State University College at Cortland

P.O. Box 2000 Cortland, New York 13045

March 21, 2005

Dear Aaron,

I am pleased to inform you that the Faculty Development Committee has selected your proposal for a Teaching Innovation Grant award of \$500 for the development of a web-based resource for the use of students and instructors involved in teaching BIO 110 and BIO 111.

The Teaching Innovation Grant program was established as a means of encouraging the development and sharing of new instructional strategies among faculty. Upon completion of your project in Spring 2006, you will be asked to share the results with the faculty through a public presentation. The Committee will be happy to assist you in selecting an appropriate date and location for your presentation.

Best wishes for the success of your proposed project, and thank you for your interest in the improvement of teaching at SUNY Cortland.

Sincerely,

Mary Lee Martens
